IN THE BOWL

The final day of the Championships in the Rose Bowl is a unique opportunity for us and the sport of Frisbee. We anticipate the largest crowd in the history of the event as a result of much more active public relations work. As you can easily see by the schedule, a majority of the competition will be completed prior to the final day. The program in the Rose Bowl has been streamlined in order to present some of the best aspects of our competition in a format that will be entertaining for the public. I am confident that we can both preserve the high integrity of the competition and make a fine public presentation. The Olympics do it every four years.

The schedule of the program, however, has been designed to enhance it's appeal to the spectator. For that reason, it will move along at a brisk pace.

A major question which I have faced in planning for the day in the Bowl has to do with the role of the competitors who do not qualify for the finals. This, of course, includes the majority of us in that only approximately 20 players, other than the Guts and Ultimate teams, will qualify for the final day.

The most simple plan of course is to allow only the contestants in the finals on the field at the Rose Bowl and have non-qualifers be in the stands as spectators just as they would be if they failed to qualify for the Final at Wimbleton or in any other similar tournament situation. I have considered this option, however, and have decided that it is important for all of us to be a part of the final Finals in the Bowl. If this plan is to work, however, there are certain contingencies that each individual must follow:

1. There will be a special tent and seating on the Rose Bowl field for all contestants, both qualifiers and non-qualifiers. All contestants who wish to be on the field for the Finals must wear the shirt, shorts and socks issued on Saturday night.

2. There will be a special warm-up area demarcated near the contestant's tent. Any throwing other than in competition must be done only in this area to avoid distractions which would detract from the featured performances. Contestants in the events have warm-up priority in this area.

I believe this is important not only for the sake of the presentation of the events, but also out of respect for the players who have qualified.

3. Viewing the various finals, players may move from the contestant's tent but should sit in specified areas for each event to minimize blockage of view for the crowd and the television film crew.

Below are listed the viewing areas for players for each of the Final events.

1. GUTS - Along the Eastern edge of the Guts court

2. DISTANCE EVENTS - Along the Eastern edge of the Distance boundaries and throwing area.

3. FREESTYLE - Behind the judges, on the Eastern side of the Freestyle area.

4. ACCURACY - Behind the 35-yard throwing line

5. ULTIMATE - Anywhere along the Eastern sideline

We have an opportunity for great exposure of the sport and with that comes the fact that we must accomodate the needs both of the spectators who are present and the film crews of CBS who will give Frisbee it's most wide-spread and most legitimate publicity in the sport's history.

I trust that you will not find these restrictions too burdensome as they do allow you to watch all of the events from an extremely good vantage point. I do however, ask your strict cooperation on all of the above requests in order to faciliate the smooth operation of the Finals. If you feel you would be more comfortable in street clothes, in the stands, you are, of course, free to exercise that option.
