# SUNDAY IN THE BOWL

The final day of the championships in the Rose Bowl is a unique opportunity for us and the sport of Frisbee. We anticipate the largest crowd in the history of the event. As you can see by the schedule, a majority of the competition will be completed prior to the final day. The program in the Rose Bowl has been streamlined in order to present some of the best aspects of our competition in a format that will be entertaining for the public. I am confident that we can both preserve the high integrity of the competition and make a fine public presentation. The schedule of the program, however, has been designed to enhance its appeal to the spectator. For that reason, it will move along at a brisk pace.

A major question which I have faced in planning for the day in the Bowl has to do with the role of the competitors who do not qualify for the finals. This, of course, includes the majority of us in that only approximately 20 players, other than the Guts and Ultimate teams, will qualify for the final day.

The most simple plan, of course, is to allow only the contestants in the finals on the field at the Rose Bowl and have non-qualifiers be in the stands as spectators just as they would be if they failed to qualify for the final at Wimbleton or in any other similar tournament situation. I have considered this option, however, and have decided that it is important for all of us to be a part of the finals in the Bowl. If this plan is to work, however, there are certain contingencies that each individual must follow:

1. There will be a special tent and seating on the Rose Bowl field for all contestants, both qualifiers and non-qualifiers. All contestants who wish to be on the field for the finals must wear shirt, shorts and socks issued on Saturday night. IMPORTANT NOTE: Orange field buttons which were issued on Wednesday in your Frisbag, must be worn at all times pinned to your shorts. Without your button, you will be asked to leave the field by security except when in actual competition.

2. There will be a special warm-up area demarcated near the contestant's tent. Any throwing other than in competition must be done only in this area to avoid distractions which would detract from the featured performances. Contestants in the events have warm-up priority in this area. I believe this is important not only for the sake of the presentation of the events, but also out of respect for the players who have qualified.
