

W.F.C REVIEW

SUMMARY

TO ALL OUR PEOPLE:

Well, they loved us. We have come to the brink of a massive and explosive appreciation of our art. We are the leaders of a revolutionary addition to the sport and recreational culture of the world. However, as I warned in "Looking Ahead" we must exert a conscious effort to protect the special joys of play. Together we can make a change in the quality of people's lives by introducing them to a limitless challenge with lifelong appeal. We all have these gifts to share.

Spread the joy.
