Championship Events

Self-Caught Flight

Maximum Time Aloft: M.T.A. is one of the most demanding of all flying disc disciplines. Good performances require strength, control and an extensive knowledge of the nature of disc flight. Players throw a "boomerang" flight into the air and catch the return flight cleanly in one hand. Time is measured from release until first contact in the catching attempt.

World record — 15.2 seconds, Mark Vinchensi, Amherst, Mass.
Women — 10.02 seconds, Monika Lou, Boulder, CO

Throw, Run & Catch: TR&C holds all the challenges of M.T.A. plus requiring that the player be a swift runner. Players throw a "boomerang" flight into the air and catch the return flight cleanly in one hand. Distance is measured from point of throw to point of first contact in catching attempt.

World record — 254.9 feet, Bob Reeve, Tempe, Arizona
Women-155 feet, Marie Bracciale, New Smyrna Beach, Fla.

Self-Caught Flight points are determined by evaluating the player's performance in both M.T.A. and TR&C.

Distance

More powerful players, better technique and improved discs have pressed the distance barriers well past the length of a football field. Both the backhand and the sidearm are popular deliveries for this power event.
World record — 444 feet, John Kirkland, Santa Barbara, CA
Women — 283.5 feet, Susanne Lempert, New York, NY

Frisbee® Disc Golf™

One of the most exciting developments in play is the public acceptance of Disc Golfing. Many club and municipal courses have been experiencing very heavy usage. Play is analogous to ball golf except that fairways are shorter and much more restricted. Holes are completed by either striking objects on informal courses or hitting Disc Pole Holes on standardized courses.

Double Disc Court

A doubles game in which a pair defends a 12x12 meter court. The courts are separated by a 15-meter neutral area. Each point begins with one player on each team throwing the disc to the opponent's court. Scoring occurs when a team drops a disc, has a disc land in their court or holds both discs. Good shot variety and placement are the keys to competitive success.

Freestyle

Freestyle is the "hotdog" aspect of Frisbee disc play. Based on the throw and catch fun of the beach and backyard, freestyle has become an extremely challenging and beautiful aspect of competitive play. Judging is done by other active players and considers difficulty, execution, variety and presentation.

TEAM GAMES

Guts

Two teams of five players face each other across a 14-meter neutral zone. The disc is thrown at great velocity across this zone with points being scored for wild throws or missed catches. All throws must be caught cleanly in one hand. The Professional™ model is used for Guts.

Ultimate

A field game played with seven players on each team, Ultimate has become extremely popular with club, high school and college teams. The disc is moved from player to player by passing and goals are scored by throwing to a team member in the end zone. The 165-G® Frisbee disc is used for Ultimate play.

WHAM-O

SINCE 1948

Dear Frisbee Disc Enthusiast:

Welcome to the 1979 World Frisbee® disc Championships. We hope that you enjoy watching and learning about disc sports as much as all of us at Wham-O enjoy bringing them to you.

You are participating in the birth of an exciting, fresh and dynamic new sport, and for your enthusiasm and interest, we thank you.

We would also like to thank our sponsors for their support and assistance. We would like to express our gratitude to ABC Wide World of Sports for their foresight in introducing disc sports to their audiences. We would like to thank the City of Pasadena and all the agencies involved for all their help and assistance.

A special thank-you goes to the International Frisbee® disc Association, the players and officials, for without them and their dedication none of this would be possible.

But most of all, I would like to share with you my deep appreciation to all my associates at Wham-O. Many people, too numerous to mention, give willingly of their time and efforts for many months each year, above and beyond their normal duties, to make this day an event you and your families can enjoy. With us, Frisbee® disc sports is a labor of love. We cordially invite all of you to share this love with us.

Sincerely,

Robert P. Gardner
