WOMEN
JUNIOR * PLAY FREE *

REGISTRATION FEE $10.00

WINDS OF DISTRUCTION WINDS OF CHANGE

July 9, 1993 at 9:30 seamed like a normal summers evening with a slight breeze and a sultry type of atmosphere. We were driving down Normal Blvd. going west along Homes Lake when "IT" hit. Stop signs bent and quivering at the ground was the first notion that the rain storm that approached as a suspicious curtain of drench; was indeed a tornado. The day after we went to Interstate Park to access the damage. After walking the front 9 holes we felt reassured that the park was in good shape with little tree damage.

On hole 10 I shot a 4 which was quite annoying for a par three rating and I rounded the creek to tee off on eleven.
What I saw was close to what vets would call a war zone. (with out casualties); thanks to some power that is vested greater then ours. Some power to send tree-tops cracked and soaring through space and rifling into the ground where disc golfers once stood. Meaning that this next tournament should be very interesting when players will have to throw over 10 foot high tree debris to make a putt.....NOT.

A tornado ripped through holes number 11, 12, 13, 15, 16, and 17. The soft quavering pine trees that once shaded our presences on the course are now only stump of what they use-to-be.

On July 18th LFDC members turned out in full glory, Mr. Bill (Hulbert) and his chain saw, Patty Botsford with her farm grown muscle and about 25 others took down trees that were tangled by the high winds. Piles were made and the park looked normal except for 10 foot high piles of branches.

A SPECIAL THANK YOU TO: AIRPORT INN, for use of their rider mower and trailer. Gill Grady runs wonderful hotels, (Airport Inn and Congress Inn) here in Lincoln. Both are close to the course. The hotels are a great place to stay; complete with pools. #402-475-9541.

CORNHUSKER DISC GOLF OPEN IV

July 24 and 25 the Lincoln Flying Disc Club hosted the 4th annual Cornhusker Open. The Professional Disc Golf Association sanctioned tournament was held at Interstate Disc Golf Course at Max E. Roper Park at 3rd and Fairfield Streets in Lincoln NE. The Course conditions were unusual for late July, which proved the sport very challenging; more on this later. Highlights of the winners first.

Battling it out back and forth in the Pro Open division was Jeff Harper of Coralville, IA and Aaron Slezak of Omaha NE. Jeff took on a 3 point lead in the long pin placements to take back to Iowa the first place trophy. Jason Steffen of Ceder Falls, IA. trailed the winner by 6 throws and collected third place. Pro Master winner Frank Brookfield of Phoenix, AZ. took a total of 202 for 72 holes played, leading Dennis Vansholtz of Herrington, KS. by 5 points. Lincoln's Brad Ramsay came in third with a 213.

A close contest between the Women's Division left Juliana Kover of Ceder Falls IA. in first place with a 266 for 72 holes of play. Lincoln's Anita Jackson 3 throws from the winner played hot for a 1 year veteran of the disc. Deb Beckler of Lincoln, last years winner trailed the leader by 31 points.

Chris Oien of Omaha, Kelly Warren; Kansas City, MO. and Jeff Mullen; of Ceder Rapids, IA. respectively won the Am. I titles with scores of 203, 207, 210. Amateur II winners with 228, 228, 235 scores proved hot competition for Timothy Elder; Overland Park, KS., Neil Hawley; Lincoln, Ne., and David Nolte; Lincoln, NE. The tie between the first and second places were resolved by a toss of a coin and Elder came out with the luck of the flip. David Sewers; 239 and Kendall Johnson, 277 won first and second in Novice.

Juniors played 36 holes on Saturday with scores of 122, 141, and 152. Adam Barret led the pack with Brandon Bartek and Tony Podany; all from Lincoln on the second and third titles.

The playing conditions Saturday morning consisted of flood waters over 20% of the playing field and high 20 to 30 knot winds. Tee off time was delayed as park officials and LFDC members cleaned sidewalks of mud and debris left after the waters receded into the banks of the creek that runs through Max E. Roper Park. Players threw in knee deep water on some holes. Water and mud conditions reduced the distance discs. No course records were broken but many players commented that the unusual conditions were quite thrilling and required more technic to throw competitively.

Major thanks to the following key tournament sponsors; Coke Cola, Red Barron Pizza, Meadow Gold Dairies, Airport Inn. Cont. .....page 2

SUPER SAVER
"WE SELL FOR LESS"

SO SEZ THE PREZ

I'd like to thank all the sponsors, and individuals who helped make this years Cornhusker Disc Golf Open the biggest and best one to date. We had the best turnout yet with 68 players; despite some unsatisfactory ground conditions! Unfortunately, a couple weeks before the tourney, we had what was later confirmed to be a tornado, make a mess of our park. It took out lots of the trees on our young course.

Thanks to all the truly dedicated people who helped out on course clean-up day. The course was cleaned up for the most part in just one day! I'd also like to thank all the out-of-town players who made the rough trip down to participate in the Open! I'd like to see each and every one of you back next year!

To all the Amateurs out there, the First Annual Nebraska Amateur Championships will be held on August 14 & 15. It promises to be a very fun tournament. There will be a class for every Amateur, so anyone can play. Please plan to attend, there will be trophies, and prizes given to the top 3rd finishers.

A few of us participated in the Mighty Shunga Nunga, in Topeka, Kansas on the weekend of July 31. It was held at Crestview Park, and the all new Lake Shawnee Course. Lake Shawnee was a very unique course, with mowed fairways, and greens. It had some holes near the lake, and one where you had to actually throw across part of the lake, or at least try to! I am proud to announce that the Lincoln Flying Disc Club now sponsors a tee pad at the course. We will also sponsor at least one tee-pad at Omaha's new course at Seymour-Smith Park. A few members may even personally sponsor a tee pad. Anyone that wishes to sponsor a hole there, of just make a donation, I'm sure it would be greatly appreciated. Please contact Brad Packet at 402-593-4063.

Keep Em' Flyin'!
Rick Fleege

CORNHUSKER DISC GOLF OPEN IV

CONT...

Coke Cola brought out a pop fountain for the golfers use durning the tournament. This went great with the Red Baron Pizza that was contributed. Red Baron also gave us the pizza cutters for the players packets and the Smokey Joe grill. Meadow Gold made sure the players started the morning off right by donating yogurt, milk and orange juice. For many of the players this was a life saver. Meadow Gold also donated the golf towels that were in the players packets. Every one at the tournament appreciated these donations and the support these companies give to the sport. Coke and Meadow Gold also previously donated money for the construction of the course.

A big Thanks to graphic artist Kim Theesen, who designed the logo for the T-shirts. This logo will be our new hot stamp for our discs. The strength in this logo will represent our club well when we lose our discs on some other courses ruff. The finders won't want to give the disc back. Kim also arranged for the production of the T-shirts. Thanks Kim and Anita for all your help Kim also did a great job on the tournament programs and scorecards.

Thank you to the wonderful tournament staff of Julie Hauschild, Donna Stevens, John Stevens and Tandra Bilbo. You did a great job. Also thanks to the crew that moved the pole holes, scooped the mud off the walks after the flood and shuffled the paperwork.

Airport Inn really helped us out by letting us use their rider mower and trailer. Next year call early to make your reservations. Airport Inn is less then 2 miles from the course.

Hats off to The Legend; Albert Nelson, for doing such a great job as Tournament Director. We appreciate all your hard work.

THE FOURTH ANNUAL CORNHUSKER DISC GOLF OPEN
JULY 24-25, 1993 LINCOLN, NEBRASKA

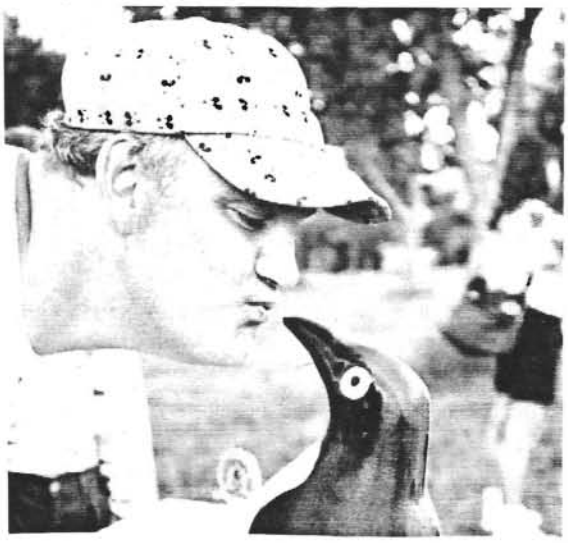
OMAHA UPDATE

Could permanent disc golf baskets be placed in Seymour Smith Park soon? Brad Packett President of the River City Flying Disc Association believes this answer to be Yes!

The Dodge Dart Raffle got a lucky break when the raffle winner from Omaha, preferred to take $1500. cash over accepting the keys to the car. This enabled the RCFDA to make a modest profit on the raffle. Proceeds will go to the future disc golf course at Seymour Smith.

KETV donated $77. for the course and gave some much needed publicity for the project when sportscaster Greg Peterson and film crew showed up for the July 27th Summer Teen Tourney. This event was a mini tournament to introduce local kids to the sport. Several RCFDA members were present to help Greg and the kids. With camera rolling Greg launched a few discs and from 65 feet out landed one in the chains. Needless to say everyone went crazy. That shot looked even better on the sportscast which was aired a few nights later.

Some other donations and pledges are coming in. Several holes are staked out and waiting for the shipment of chained pole baskets. Hopefully in the next newsletter you will see pictures of disc golfers doing their thing on the real McCoy in Omaha.



THE PINGUIN AND PRACKETT. THE PINGUIN WAS VOTED TO BE RCFDA'S LOGO AND MASCOT.

SUBMITTED FOR YOUR APPROVAL : THE REVISED COURSE MAP

What you see here is the latest in map graphics from yours truly. Before I went ahead and cranked out a few thousand copies, I wanted some feedback from LFDC members.

SOME CHANGES...

The course map proper is a little bit larger than the other one we had. It can be printed on two sides and cut in half so the finished size would be 4.25 X 11. Printing can be on card stock, or if we want to go the inexpensive route, plain old white bond should be adequate.

I decided to leave off much of the typography, like labeling the creed, bike path, out of bounds, etc. and create a legend instead. Diagonals for the A and B placements were utilized on the scoring section with the pole hole on the top and the par on the bottom. Some editing in the local rules section was in order. I redesigned the how-to -get-to-the-park map, too. I liked the original idea of using the interstate signs for the pole hole numbers and used them for ID.

Look for an arrow on No. 2 noting a dog leg. If you look at the sign by the tee pad, you'll see a dog leg on it. It was brought to my attention that when this hole was in the B placement, many players would attempt to shoot through the trees which were taking a beating. I would like to strongly suggest to everyone that we make this a mandatory dog leg. If there are some lefties out there that might be unhappy with this, I have no problem with the implementation of a dog leg on No. 17. (Hey, they add a little spice anyway to the course. Right handlers need to work more on that anhyzer toss anyway...) I labeled Fifth Street and Judson Court, and used the international "P" for parking. The AROUND NINE is labeled as such. I left off the phantom B placement for No. 16.

PUT IT WHERE?

I mentioned at the last meeting that it would be interesting to see what changes in the course people would like. Here's a suggestion. Take this map out of the newsletter, photo copy it, get a bright red marker and doodle away. Let's see if there's any consensus out there for a couple of new alternate (i.e. short with finesse) placements

If money were no object and I personally owned this park. this is what I would do tomorrow. I'd leave Nos. 1, 2, 4, 6, 8, 9, 10, 11, and 15 the way they are now. These holes currently have a good contrast in their placements and/or it would be difficult to come up with an alternative.

No. 3's B placement would be scrapped and moved next to the big tree about 200 or so feet from the pad. B on No. 5 could be moved closer to the path to give a break to the lefties. I'd pull up No. 7B and drop it right in the middle of those three little evergreens. (This is my favorite and most talked about possibility and it looks like a fun par 3).

On the back nine, move No. 12A up closer to the pad about 50 feet and push it back into the trees by the bike path. No. 13B would be moved about 300 feet from the pad to the west, nestled in among the trees. (This is my second priority for creating finesse holes for the course.) No. 14 could have a B placement between its pad and No. 15's pad.

Move No. 18B so it's only a couple of hundred feet from the pad, but perilously close to the creek's edge. (Hey, if you can throw it soft and accurate, it's an easy birdie. If not, you're in the water. Am I the only one who hates to end a game by throwing 532 feet to No. 18B?)

Like I said at the beginning, these are only ideas. Overall, I like our course at Interstate Park. And after playing some out of state courses on a wet weekend in May, I appreciate it even more than before (especially the concrete tee pads). Toss'em long and high...

WORLD'S BIGGIST SCORES

Fifty-eight players took part in the World's Biggist and supported disc sports on May 15. The players are listed in alphibetical order with their scores to the right. A big THANK YOU to Rick and Mike Fleege for running the tournament. Kim Theesen got the honored award (THE ROLF FREI PLAQUE...) for bringing the most new players to the tournament.

One problem is that not all players turned in their score cards. and some only put their first names on the cards so we will list only the scores advailable to us. Thanks for your participation!

LOCAL RULES & REGULATIONS

Out of Bounds: Residential areas (backyards, fences), playground, picnic shelters, streets, the creek... 1 throw penalty and place lie where disc was last in bounds.

Be kind to the trees. No adjusting branches to improve shot. One throw penalty when caught in tree over 2 meters from ground.

Please allow faster players and smaller groups to play through. Never throw until players ahead of you are out of range, and the fairway is clear of spectators.

Please take special care of the park's environment. Don't litter; pick up trash.
