SPECIAL ANNOUNCEMENT REGARDING STATE GAMES SEE PAGE 3

" IT IS SO COOL "

By Pat Raybould

It was a long time in coming but due to the efforts of the River City Flying Disc Club; Seymour Smith Park of Omaha now has a disc golf course.

President of the RCFDC Brad Packett recently took me around the current 7 holes of Seymour located at 72nd and Harrison. One will need a guide the first time you play the course, because the tee signs are not up yet. Usually there is a RCFDC member out playing the course on a Sunday who can help you locate the tee boxes.,

We played from both the A and B tees. Each hole is uniquely different. Number 3 from the B tee requires a monster hyser to get over the creek and be in good shape for the up shot. Just ask Brad who was shooting CONT. ON PAGE 2

NEBRASKA AMATEUR DISC GOLF CHAMPIONSHIPS

By John Talken

Over the weekend of August 14th and 15th, Mike and Rick Fleege hosted the First Annual Nebraska Amateur Disc Golf Championships at Interstate Disc Golf Course in Max E. Roper Park. Nature responded nicely providing sunny blue skies, temperatures in the 80's and 90's and sight northerly breezes. All of these conditions were duely welcomed by Nebraska's amateurs, many of whom had participated in the "soggy IV Annual Cornhusker Open, one month earlier. Evidence of which was illustrated by the turn out for this tourney, with 26 amateurs tossing their discs on Saturday morning.

Seventy two holes later Chris Oien had a secured a comfortable 5 stroke victory over Philip Schmidt, in the Advanced Division, shooting 211 and 216 respectively. In a close race for 3rd place Dave Nolte shot a 219 to best Patrick Greff at 220 and Neil Hawley at 221.

In the Amateur division, Bill Hubert shot an even par 54 in the final round to come from 3 strokes down and take a one stroke victory, at 237, over John Talken and Dave Seevers, who tied at 238. On Hole #73 Dave missed his 15 foot putt for par giving John second place. Rod Johnson took 4th place at 240 and Mike Unverferth hung on for 5th at 241.

In the Ladies Division; Anita Jackson cruised to a 30 stroke victory at 265. Deb Beckler shot a 295 for second place and Mary Kay Vestecka took 3rd place with a 321.

The Junior Division had a good time out for their 36 hole tourney on Saturday where John Hatten outlasted Adam Barret for a two stroke victory at 137 and 139 respectively. finishing in 3rd place was Chris Chmelka at 141.

"SO SEZ THE PREZ"

9th ANNUAL FRONTIER OPEN

I must tell you about what I thought to be a championship quality course in Hays, Kansas. It is one of the more challenging courses in the Midwest, if not the country! It has almost every type of shot imaginable, from 150 foot touch shots, to 400 foot shots through the not so friendly trees!

Hays' course is also known for its water hazards, so bring some extra plastic along, especially if the wind is even close to what it was for the Ninth Annual Frontier Open this year!

The Pro-Open Division was won by Mike Randolph of Westminster, Colorado. Mike Shot a course record of 10 under on the second day of competition. Lincoln's John Talken took home a second place out of a field of 18 Amateur II players.

This was a well organized, and fun tournament, and is now on my "MUST PLAY" list. I am already looking forward to next year!!!

I would like to mention that Wednesday, Nov. 17, is set for a meeting at Arnold's tavern in Havelock. Meeting time will be 7:30 and we will be discussing the Cornhusker State Games. Dave Nolte, Kim Theesen and Anita Jackson will be on hand to talk with us on the State Games subject. Many things need to be decided before another meeting with Mr. Lindenstein and the Games' board of directors in early December. Untill then...

KEEP EM' FLYIN ! !
Rick Fleege

It's So Cool / Cont.

from way down inside the creek bank edge. Hole #4 you need to shoot up hill through tall grass and a lot of 3-5 foot tall trees, keep a good eye on your disc.

A couple of holes were improvised to get us back to the regular course. We were now on flat ground. Here the holes are bordered with beautiful tall pine trees. Brad tells me you can even play a few holes at night when the near by ball diamond has it's lights on.

Several RCFDCERS are very proud of the course. "It is so cool" Brad said beaming with a smile. He is so right and the future 11 holes will be even cooler.

VOTE

LINCOLN FLYING DISC CLUB

HARVEST OPEN '93

The sun streamed down on the leaf covered course, yes leaf; not flood water covered nor snow covered; but leaf covered course. Harvest, the time to reap your goods, cash in your pay-o-la, get what's coming to you! Yes the Harvest Open was a great success; both for the club as the only fund raiser of the year and for the players with the mind to conquer.

Twenty-eight players competed in the 3 flight tournament in which the first 18 holes only counted in the flight placement and in the dead lock ties of the second 18 holes. Coming out on top and close behind was first flight players:

	I	II
AARON SLEZAK	46	47
KURT KOPP	56	47
JOHN TALKEN	54	49
ALBERT NELSON	51	51
TERRY PARKER	53	52
CHRIS OIEN	53	54
JOE BOTSFORD	56	55
CHARLES STRAUB	53	61
MIKE FLEEGE	55	63

Harvesting First Place of 2nd flight; Philip Schmidt

PHILIP SCHMIDT	58	53
RICK FLEEGE	60	53
DAVID SEEVERS	57	54
JOHN CLIVE PERKINS	58	54
SETH HAKANSON	59	54
BILL HULBERT	59	56
BRAD PACKETT	61	57
DREW SEEVERS	62	59
PAT RAYBOULD	62	65
ANITA JACKSON	63	67

Third flight leaders :

ROD JOHNSON	64	60
ADAM BARRET	71	60
CRAIG JANSSEN	69	61
JARED ALBERICO	69	61
MIKE BARRET	64	62
KEN SCDORIS	69	66
KENDALL JOHNSON	74	69
DEB BECKLER	81	72
MARY KAY VESTECKA	79	74

Drew Seevers collected the Ace Fund on a closes to the pin play off. Craig Janssen and Jared Alberico played a tie breaker for 3rd place, third flight.

This tournament reaps a lot of rookies, first year players that next spring will advance their way to the top of the stack. Remember, pros and amateurs both played in this tournament. Players like Aaron and Albert have been asked to the World's Disc Golf Championships and did quite well. It is exciting to compete so closely with these pros. Since Nebraska is new to the sport of disc golf our goal for our club is to put more people on that World's Championship mailing list! Become a PDGA member, go to sanctioned tournaments, build your qualifications with the PDGA. New Memberships start at $25. and renewals are $15. for AM players. Write for a membership to the PDGA at:

FROM THE CHIPS...

MISC. BITS FOR DISCUSSION– by KIM THEESEN

-Since nobody wrote in to me or The Flyer concerning alternate pin placements at Interstate Park, we will be implementing all of my ideas this coming weekend. The lengths of Nos. 13B and 18B will be cut in half and B placement on No. 7 will be dug up and moved to the group of trees by the bike path. Nine new holes will also be installed: Seven at the north end and two at the south... Hey! He can't really do that can he? Come on people, let's get involved. Write to the newsletter and give it some input. This is your club. This is your course. Just do it...

-What do we have to do to replace the missing garbage can between Nos. 13 and 14? How do we get more cans on the course? Please, I make an appeal to all of us to pick up all of the litter on the course and property dispose of it.

-Thanks should go out to those who were moving the pin placements more often towards the end of this year's prime golfing season. I always find it a pleasant surprise to be walking up to a hole and find the pin in a different place from my last game.

-The club should establish a regular meeting schedule and meeting place. Whether it's at Rock'n'Roll Runza on the second Wednesday in months with no R's or what ever, we need a regular schedule. Ditto for the newsletter.

-I'd like to see the Club create a printed OFFICIAL LFDC / INTERSTATE PARK RULES BOOKLET which includes a specific section on exactly what is out of bounds and tourney formats. They would be used for all club tourneys (unless otherwise stated for special or unusual course layouts). Then, before tourney, participants aren't asking about what is out and what is in and attempting to define THE CREEK.

-And on this subject of tournaments... The Star City Classic, May 16th, was two rounds, 36 holes.. The first 18 were to establish the flights of four. The second, would be competition within the flight for a disc. It was to my understanding and several others, that the second 18 would start from scratch for even competition within each respective flight, *not a total of all 36 holes.* By going with the total score, Dave Nolte, for example, started out 5 shots down (51 to 46) to eventual tourney winner Brad Ramsay. With Ramsay shooting a second round of 46, Nolte would have had to shoot a 40 to win! Think about it.

-If any of you out there still owe dues for the Club, send it in... I'd like to suggest to the editor and treasurer that if memberships are not in, that non-club members should be purged from the club mailing list.

-I'd like to propose to the Club for records and archives purposes that Interstate Course records be established. There should be three divisions: Men, Women and Junior. I'm not sure about the Men's and Junior's but I submit for the record book that Anita Jackson has the Women's record for all time best score in organized play. For those of you who are concerned about "consistent" records for long and short placements and setting up the course to conform to a certain "official" layout, keep in mind that as the course evolves, (new placements, new holes, new trees, trees getting ripped up by Mother Nature, etc.), it will be impractical to keep up with all of the variables. Keep it simple, best score for those aforementioned categories has to be done in order to insure a successful tourney...

-For the next issue: I'd like everyone who has played in other tourneys or on other courses to write in and share your experiences with the rest of the Club. I played in the weekend tourney at Waterloo, Iowa, and found it a fun experience. Also Anita and I played at seven different courses (over a hundred holes on our trip back from Chicago this past summer. Our tales of disc golf will be in the next issue... Until then shoot for the chains.

Nebraska's Disc Golfers Elated!

DISC GOLF IN STATE GAMES!

We are very pleased to announce that the Cornhusker State Games, "Nebraska's Amateur Sports Festival," has accepted the sport of disc golf as a demonstration event in their 10th annual 1994 games. Credit goes to Anita Jackson for her persistent and successful efforts. Anita wrote the letter of enquiry and filled out the application. Anita, Dave Nolte, and Kim Theesen then met with Assistant Director Dan Lindenstein for a lengthy discussion of the sport of disc golf. Soon after, the announcement was received. To excerpt from Mr. Lindenstein's letter, "We are excited about this addition to our lineup of sports and feel it can be a very positive step in our continuing attempts to improve the Games."

The '94 Games will take place during the week of July 9-17. The disc golf competition, and the majority of the Games' events will be on the 16th and 17th. We anticipate being PDGA sanctioned, having a minimum of eight divisions, including three junior divisions, and junior tees, so any and all skill levels can find a place to compete. The entry fees are (tentatively) $10/12/15 for junior/amateur/advanced amateur, and the player pack will include at least a Cornhusker State Games T-shirt, a raffle ticket, program, and a ticket for dinner at the sports banquet on Saturday night for all competitors. These games are open to all Nebraska residents who have amateur status in the sport in which they are entering.

The designation "demonstration" sport is newly created (disc golf is the first sport so admitted) and allow the Games to review the performance of a particular sport, i.e. attendance, organization, etc. after one year before granting it official status. Disc golf was given this chance in spite of the fact that it is not an Olympic/Pan-American Games sport, which are required to make up 80% (which they've already reached) of all sports categories in the State Games under provisions of a multistate games coalition to which they belong. Not all applying events are accepted, and not always in their first year.

CORNHUSKER STATE GAMES

Nebraska's Amateur Sports Festival

We feel our acceptance under these conditions is due to the personal advocacy of the sport by Mr. Lindenstein before the Games' board of directors, and we hope that the members of the Lincoln Flying Disc Club can, again quoting from the letter,"... begin to plan the event for the weekend of July 16-17 and to publicize it as much as possible in order to maximize participation."

Further progress reports will be forthcoming. Feel free to contact us with any questions:

***** DEADLINE DECEMBER 15 *****

THE FOURTH ANNUAL CORNHUSKER OPEN: COMMENTS & CRITIQUE

By Kim Theesen et al.
Submitted to the president of LFDC, The Flyer, and TD.

FYI: NUMBER OF DISC GOLF COURSES IN THESE STATES:
CALIFORNIA.....36
TEXAS.....32
ILLINOIS.....25
IOWA.....24
MINNESOTA...20
KANSAS.....18
MICHIGAN....18

1993 JAPAN OPEN

DISC GOLF TOURNAMENT 1ST PLACE OPEN: KEN CLIMO...$4,350. WOMEN'S 1ST PLACE: BECKY POWELL $1,740. MASTER'S 1ST PLACE DAVID GREENWELL.... $1.740.

Historic 1st Hole-in-one at Seymour Smith was made by Chuck Straub on Oct 17th, 1993 It was on Hole #9 from the "B" tee, A 230 ft. blind anhyser! Great shot Chuck.

HATS OFF: The first thing I would like to do is bestow mass quantities of accolades upon all of those who helped to make the Cornhusker Open the success that it was. It was bad enough that we had a tornado come through the park (yes, it officially was a tornado kids...), we had to top it off with the chip washer that deluged the course with a couple inches of rain and added new water hazards. To those who scooped and scraped the pads before most of us participants showed up to play, my hat is off. Thank You. And special thanks to all of the corporate sponsors who provided the food and beverages.

Being somewhat new to the sport and this being my first sanctioned tourney, I was pleased with most of the two day's activities and the way it was ran. During the play of 72 holes of disc golf, my fellow players and others made a few notes about the tournament. Everything (except the weather) that can be controlled as organizers of the Cornhusker Open should be done to the best of our abilities and available funds. We hope our collection of observations will be taken in the spirit of constructive criticism and not taken personally.

STARTING ON TIME: The players' meeting started at 10:40 a.m. We heard the two minute warning for the first round at approximately 11:15 a.m. They were supposed to be 9:30 and 10:00 respectively. I can understand starting a little bit late because of the weather and last minute course clean up, however, the players' meeting should be reserved exclusively for the tournament director. Any comments made at that time, other than the TD's meed to be about the rules or subjects discussed prior to Round 1. There are many opportunities to make announcements about other tourneys in other states later. Everybody was edgy and chompin' at the bit to get the play started.

PREREGISTERING: Pre-registration should be implemented and aggressively encouraged, especially for the local club members. When players approach the picnic shelter, there should be two big boxes of color coded registration forms: one for club members and one for non club members. If you've pre-registered, you may by-pass standing in line to get a form and then standing in line to turn in the form. They'd simply give their name at the table and get their player pack and get out of the way. (If the resources were there, i.e. volunteers and enough who preregistered, we could have a separate station for those who planned ahead.) By having the forms available via a box or someone passing them out to the players, they could be filled out before getting to the table.

PLAYER DIVISIONS: There was plenty of chatter over "what division do I play in?" and "do I pay AM I or AM II, what's the difference?" or "You shouldn't be playing in AM II, you should be in AM I."

If there isn't documentation (i.e. printed in black and white descriptive definitions of the divisions) by the PDGA concerning this, there should be. This would erase any doubts as to where you are and in which division you should be playing. And, obvious that if you've played pros you've played pros you're not going to AM II, but what about staying in a division and not advancing?

WHAT FOLLOWS IS A PROPOSAL TO LFDC FOR ALL LOCAL TOURNEYS

JUNIOR: Anyone, male or female, up to the age of 15 is eligible.
NOVICE: Anyone, male or female, any age, who has never played in an organized tournament (local or PDGA sanctioned) is eligible on time only. You can not play in the Novice Division again and must proceed to another amateur or professional division.
WOMEN: Any female, any age, is eligible. This includes those females who would also be eligible to play in Junior or Novice, but choose to play in the Women's Division.
AMATEUR II: Anyone, male or female, any age, who has competed in an organized tourney (local or PDGA sanctioned) is eligible.
AMATEUR I: Anyone, male or female, any age, is eligible.
PROFESSIONAL OPEN: Anyone, male or female, is eligible. You are ineligible for the organized tournament (local or PDGA sanctioned).
MASTER: Anyone who may qualify for Pro Open, Advanced or Amateur divisions and have reached at their 35th birthday at the beginning of the tournament.

LUNCH BREAKS: Everyone should get at least one hour between rounds. The women's foursome started Round III at 9:05 a.m. Their round lasted three hours and twenty minutes, which means they were done about 12:20 p.m. With Round IV starting shortly after 1:00 p.m., They got about a 45 minute break for lunch and rest. In order to get an hour for lunch for everybody, the clock must start after the last group gets in on Rounds I and III.

GRAPHICS &PROPOSED GRAPHICS: I want to thank everyone for the positive comments on my graphics for the tourney. ScreenCo did an excellent printing job on the shirts (Yes, I agree, next time we need some XXLs and sleeveless/tanktops). As far as the program goes, if I do them again I'd like to make it a little bigger. It could include a section on rules (playable/unplayable lies, casual water, basic etiquette, etc.) and any special out of bounds. Also, we could add a section on popular places to eat and drink...(especially if they buy an ad...) and other activities to see and do in Lincoln. If other area tournaments sent us their information, there could be an upcoming events section. Print format should be pocket or disc bag size.

There needs to be professional looking signs made for all club tourneys that are placed at other entrances to the park and on the bike path that would alert other park users about the flying disc activity. A "Tourney Registration at Shelter" sign is also needed. They should be big, bold bright, and reusable (not dated).

PIN PLACEMENTS: Was anyone else out there as tired as me after the last round? Did everyone enjoy a 600+ feet hole on Round IV? Cont. on page 7

THE FOURTH ANNUAL CORNHUSKER OPEN: COMMENTS & CRITIQUE....continued

How about this set up: a mix of long and short for the first round, place them all long for the second, all short for the third, and mixed for the fourth. And for every monster long hole there should be one unusually short hole (for example: a 600 feet monster on No. 5 should be balanced with a 149 foot shorty on No. 13.) As far as the discussion on course / tourney records and their validity, see From the Chips in this issue...

HEADS OR TAILS?: I was a bit disappointed that the winner of third place in Am II was decided by a flip of a coin. Dave Nolte and Rod Johnson shot the same scores after 72 holes. I can understand a play-off hole for a first place tie or if there is a big prize, however, lucky coin tosses shouldn't be the solution. What's wrong with allowing ties for third place? Or a play-off hole or closest to pin? This isn't baseball...

SO FEW DO SO MUCH: Pat Raybould and Deb Beckler do way too much work this tourney. When they and others are helping out with all of the stuff that needs to be done for the organization of the Open, they can't concentrate fully on their disc game and vice-a-versa... We need to have more volunteers. Perhaps we could even bribe them with discs or T-shirts and /or a small cash payment. We need more who are not participating that will help with making the tourney run smoothly. It's a problem that needs a solution.

MISCELLANEOUS IDEAS:
-Could the TD or club prez. appoint or ask for a volunteer to call in or bring in a copy of the results to the all of local media?
-When the Cornhusker Open gets bigger, will we have amateurs one day and pros the next? Some of us amateurs would have liked to have watched some pros play... Or how about starting the amateurs earlier than the pros so we can establish a gallery?
-How about portapotties at Nos. 7 and 14?
-How about a portable PA system?
-How about a division of Amateur Masters (Ams. over the age of 35)?
-P.O. Pears was a great idea...We had a private area to ourselves, there were cheap drinks and good burgers. Too bad Pears allows unruly children to ruin the atmosphere. Let's talk some more about a Saturday evening social gathering.

IN CONCLUSION: Plans should start now for planning next year's open. First item on the agenda for the next meeting should be a critique of this year's and a start for next. I propose the creation of a master list of all of the tasks, both big and small, and encourage every member of the club take on at least a couple. When we all share the burden, it's much lighter for the individual.

Thanks for letting us air our concerns... See you next year at the Fifth.

NEBRASKA AMATEUR DISC GOLF CHAMPIONSHIPS ... cont.

The 1st Annual Nebraska Amateur Disc Golf Championships were a big success for the LFDC and those who participated in the tourney. Hopefully this will set the tone for more tournaments in Nebraska to develop the amateur disc golf community. Thanks to everyone who participated and to tournament director Mike Fleege and brother Rick for makin it happen!

A few weeks later this writer was fortunate enough to participate in the 1993 October Friz Disc Sport Festival in Winfield, Kansas, KAW! Highlights of the 3 day festival were:

Numerous field events including Accuracy, distance, MTA, TRC, DDC, Speed Flow, and Discathon.
Central States Moonlight Doubles
World Indoor Mini Gutts Championships
Extreme Indoor Mini Golf
92 challenging Holes of Disc Golf
And Harvey's Power Circle!

...Not to mention a freestyle exhibition by Crazy John Brooks after accepting his trophy for 1993 October Friz Disc Athlete of the Year!

It was truly a great disc experience with over 160 participants from numerous states. Something for every type of frisbee enthusiast!

John D. Talken

P.S. Harvey's doing fine!
Best Wishes to the LFDC from C.D.!

IS ANITA JACKSON FAMOUS?
*Anita has shown up in group photos with top women disc golfers in 2 national disc golf publication.
