The Pink Sheets

Dear Discates,

Herein are to be found the entirety of my current holdings. With the release of this list all previous catalogues are now void. Notation, grading and terms are unchanged. For your convenience they are reprinted below. Some buyers have encountered the disappointment of having as much as three-quarters of their order already sold. To mitigate this they now include a list of alternate selections. Whatever your preference, I encourage you to send in your order the same day you receive this list. Most of this catalogue will probably go in the first ten days. If my occasionally much compressed abbreviations begin to give you a headache please feel free to phone or write for clarification. You may also wish to include a condition on your order; i.e. "I want #867 but only if it has the green polka dots in the background of the label." This is my first attempt at an all typewritten catalogue and your comments on it versus the old hand written ones would be welcome. Thank you for the good response to PFDC II and Series Z.
