LETTER FROM THE EDITOR

Lots going on to report- A meeting of TSFC officers was held recently at the home of President Jim Powers. It was decided that future 2 round golf meets will include an additional event, like MTA, Distance, or Guts. This will give those one-dimensional golfers a chance to polish some of their skills. Suggested was the possible production of a Disc Golf Video under Club auspices for sponsorship and promotional purposes. Present were Jim Powers, TSFC President; Rich Hughes, VP and Delaware Golf pro; Dave Stembel, PDGA officer and golfer; PDGA Course Pros Paul Fein (Sedgeley) and Scot Wittman (Rutgers). Plans were made for upcoming tournaments including a possible big bucks, multi course meet.

The Frisbee and Hacky Sack Festival was the best ever in Philly. Thanks to all who lent their talents and time to this important event. Special thanks to WYSP, Jim Powers, Paul Fein, the staff in the tent, Demonstrators and Instructors. Also to Head Hacker and Wham-O Poster Child Dale Crawford.

This issue contains the usual tournament schedule, complete with changes and updates. Read carefully, and attend these fun events!

I gotta practice putting now, not that it seems to help. See you around, and keep 'em flying. WSW

Dear Shannon,

We would like to thank all the golfers who were able to make the 1st (hopefully annual) Dead Dog Woods Open, and for making it such a pleasurable event.

We hope everyone had a good time, and will return to French Creek and make use of what we consider to be an excellent course and park.

We would also like to especially thank Terri's Trophy Shop for dedicating absolutely beautiful trophies to commemorate this historic event.

Frank and Terri- Thanks from the hearts of Dogs.

Last but not least, thanks to Jim Powers for his time and effort in setting up the tournament with Park Officials, and also special thanks to John Malay, Mr. Gerald Yocum, and Mr. Clewell for all their help and support in giving us the opportunity to bring a great sport to a fantastic park.

Sincerely Yours,

The Dead Dogs

PS- If you liked the course, let the Parks Department know about it. Pole Holes could make it a fantastic course.

COMING UP!

!!!

SEDEGELY UPDATE

by Paul Fein, PDGA Course Pro

Greetings. Those of you who've been playing Sedgeley regularly may have noticed the growing number of new players on the course. It's terrific! I've developed a new rapport with the Fairmount Park folks, and they've noticed the increased play too. They've been cooperating in cutting the grass more often, and have promised to (eventually) fix the broken gate and post no parking signs on the course side of the street at Smith Memorial Playground, facilitating play and eliminating on-course picnicing.

I hope to keep you posted.

A committee of seven, who have volunteered to serve as a grounds keeping/ course maintenance group, will also be responsible for proposed changes at Sedgeley. The changes (if any) will not make the course any easier, nor will they make it more difficult. The intent is to keep the integrity of the course while enhancing the flow of play, with special emphasis of problem spots like the proximity of holes 9, 11, & 17. The committee will make decisions on a consensus basis, and any changes will be decided on fairly and will not reflect any individual player's wants or needs.

Anyone who wishes to offer any suggestions may present them in writing to any member of the committee, who will present the suggestions to the committee and defend the positions. Getting seven people together who have interests other than Sedgeley will not be easy, but we will try. The committee consists of;

Paul Fein- 215-849-2745
Jim Powers- 215-363-0464
Dale Crawford- 215-279-2229
Mark Cicchetti- 215-828-0884
Tom Mikell- 215-242-3055
Dave Stembel- 215-557-6271
Frank Senk- 215-232-9026

One last note- People who play the course who are capable of bringing a 12 oz. can or bottle onto the course are certainly capable of carrying said container off the course as well. This may come as a surprise to some, but I am NOT fond of picking up empties. Sedgeley is my home course, and I don't like to see it trashed! Thanks, and lots of birdies! PF

Coincides With Frisbee 30th Anniversary

NEW FRISBEE DISC VIDEO AVAILABLE

SANTA BARBARA, CA -- Celebrating 30 years of high flying popularity and more than 100 million discs sold, "The Frisbee Disc Video," the first instructional home video about the Frisbee® flying disc, is now available.

Produced by Video Ventures of Santa Barbara in conjunction with Wham-O, Inc., the full-color, 35-minute video covers Frisbee disc techniques from basic throws and catches to spectacular trick maneuvers.

Also included is a history of the Frisbee (which was introduced in 1957) coverage of world competition events, fantastic canine catches, and demonstrations of the sports of Ultimate, Guts, and Disc Golf.

The video's host instructor is "Crazy" John Brooks, 1985 and 1986 overall world disc champion and a member of the 1986 and 1987 World Freestyle Championship Team which recently completed the first professional Frisbee tour of the Peoples Republic of China.

WHY?

by Shannon Winn

First of all, there are a plethora of things that Disc Sports do NOT provide. I used to think I'd meet girls maybe. Forget that idea right now. I think guys outnumber girls in Disc Sports somewhere on the order of 58 to 1. And if you factor in the availability quotient, the odds become astronomical. Just about any other activity (except prison basketball) will be better for meeting girls.

Money? Not the way I putt. Perhaps a handfull of golfers who shoot consistently well make enough to cover expenses. Freestylers and field event players may score a bit of cash here and there, but don't quit your day job just because you learned how to do that narly crash and burn gitis. Guts and Ultimate players never make jack.

Fame? Right. Sure. The Carson show keeps leaving messages on my machine, but I'm too busy.

O.K. then, why do we do it? Why do I do it. I've asked myself this many times, usually right after hurling a brand new eight dollar slab of plastic squarely into a tree trunk at warp speed. I look at my disc, lying there bent in the sticker bushes and say "Self, why do you do this?" But then, and this is important, I usually finish the hole, and then the round, and then the tournament.

Why?

One reason is that I don't feel comfortable with conformity. Many "traditional pastimes" bore or flat-out offend me because so many other people play them, and because the win-at-all costs attitude is so depressingly prevalent. There are a few disc players who have brought this anti-social, unproductive, stupid attitude with them to disc sports. I won't name names- you know who you are- but I will say this to those of you who play disc as if it were football; Please stop it, or find another pastime. Thank you very much.

Another reason why I play is that it's damn fun. The aesthetics of a disc in flight are undeniably positive. Read Dr. Johnson's book if you want more about the beauty of it all. I won't get into it here. A good shot in golf, or a particularly fine set of Freestyle moves, a great pass in Ultimate, or a massive SCF flight or distance huck provide all the thrills of any other sport. Well, almost any other sport- I've done a bit of ski racing and must say in all honesty that 60 mph plus an inch from the snow produces a little more adrenalin than a deuce at Brandywine Creek. My point though, and I know I'm rambling, is that Disc Sports are as good or better at providing "fun" than just about anything else.

I hear you- You're saying I'm contradicting myself here; If disc play and "anything else" are interchangable, why not do "anything else", where there ARE things like money, fame, and chicks?

Why indeed...

I've already mentioned the non-conformity thing and the distastefulness of cutthroat competitiveness. How about "potential for brilliance"?

Getting back to picking up that bent disc in the sticker bushes- Every time you throw a disc, you have the chance to do it perfectly. Beautifully, successfully, brilliantly. Every single time, and you don't have to wait very long for the next opportunity in disc. And the fact that you rarely if ever achieve perfection matters not at all. The POTENTIAL is there, and so you keep trying, even unto the end of time, or til it gets dark, anyway. The next shot you throw may very well be the one that's perfect.

So what do we have so far? Fun, non-conformity and potential for brilliance. Here is the final truth (for me, anyway) as to the big question why- People. Freinds. The Frisbee Family. In no other sport I've experienced is there the strength of cameraderie that there is in disc.

We ARE freinds; It's real. We DO care about each other. This unique and precious quality is not a given, though, and so a caveat to the old-timers is in order- When initiating a new player, along with showing him (or her!) the side-arm, nail delay, or zone defense, don't forget to include a few words on freindship. Love, if you will. Because this is why we play. Or should be. WSW

RIVER BEND PARK UPDATE

by Dave Stembel

An 18 hole DGA pole hole disc golf course has been proposed for a new park in Egg Harbor Township, Atlantic County, NJ. The park, to be called River Bend Park, will be located about 5-10 minutes from the A.C. Expressway and Rte. 40 on the Great Egg Harbor River. It includes a small marina and fields for various sports as well as a protected wetlands. The golf course will make use of some of the land that will not support more intensive activity. The TSFC encourages all those who would like to play a new course in South Jersey to write and show support for the proposed course. Mention your years involved in disc golf, how often you play, whether or not you compete in tournaments and how often you visit the Jersey shore, (and how a game of disc golf would highlight such a visit). Write;
